

SOUND UNSEEN

Concealed Audio Solutions with inspirational results

The Amina true plaster-in-wall (or ceiling) SoundUnseen® panel loudspeaker brings a fabulous new dimension to all home cinema and multi-room audio installations. Simply mount within a plasterboard opening and skim over with plaster - the result, unparalleled sound quality, dispersion and power, with no visible speaker.

So you can now achieve the ultimate in entertainment systems throughout every room of the home, without having to compromise on interior design!
